5. [] reported a requirement in NEA for nine copies of an improved edition of The Red Interpreter, expected to be ready about April 1955. [] reported that he had requested three copies for field distribution and had been advised that the Office of Training does not wish the present edition so distributed; consequently EE will need at least three copies of the new edition. [] reported no requirement in FE, and all other Divisions indicated that they will report on 25 June.

6. [] announced that in connection with [] the Training Committee had visited every Area Division Chief. 25X1

7. [] reported that Mr. Baird had expressed doubt that the Agency Orientation Course was reaching the audience for which it was intended. In May, over 40% of the students were GS-5 or below, whereas Mr. Baird believed the course has most value for Headquarters personnel of middle and upper grade, and for returnees. The training officers, however, stressed the morale factor in this course for all grades; in many cases it is the only opportunity for an employee to see the Agency as a whole. [] suggested having questions submitted for discussion prior to the beginning of the course. [] thought that the course would hold attention better if some of the presentations were improved. 25X1

8. [] discussed the amalgamation of the PP and PM staffs, described in []

9. [] reported on [] discussion of the Administrative Support Course. [] believed that there was too much stress on the overseas element and not enough on the Headquarters instruction. However, after [] gave a brief outline of the course content, [] agreed that the overseas material was needed by DD/A employees as well as SD/P. [] requested that training officers submit to the Training Committee memoranda embodying any suggestions for improving the course. 25X1 25X1

10. [] suggested that the training officers pick a typical day and then determine what percentage of personnel in the Division are in full-time training status. [] said he had already taken one Branch in FE and had discovered that 52% of the personnel were in either full-time (37%) or part-time training.

11. [] Chief, A&E, has asked that students be enrolled in the pre-testing as early as possible, thus eliminating an overload on the last Friday before a course is offered. [] has also requested that all GS-4's enrolled in the BIC(CS) take the pre-testing at least two weeks prior to the beginning of the course, so that the Staff can determine whether or not the individual is capable of handling the subject matter offered. 25X1

12. [] stated that the evaluations of Phase II #7, 22 March - 23 April, took six weeks to reach the Area Divisions, and that the Training Committee has asked OTR to try to prevent such delay in the future. A new
